IV. Expectations and conditional distributions	
11	Order statistics and expectations (PDF)
12	Median, quantiles, and variance (PDF)
13	Covariance and conditional expectations (PDF)
V. Special distributions	
14	Conditional expectations and special distributions (PDF)
VI. Law of large numbers and central limit theorems	
15	Law of large numbers (PDF)
16	Review (PDF)
Estimation and hypothesis tests	
VII. Estimation methods and properties	
17	Central limit theorem, estimators, bias, and consistency (PDF)
18	Constructing estimators (PDF)
VIII. Confidence intervals	
19	Confidence intervals (PDF)
20	Confidence intervals (cont.) (PDF)
IX. Hypothesis testing	
21	Hypothesis tests (PDF)
22	Hypothesis tests (cont.) (PDF)
23	Hypothesis tests (cont.) (PDF)
